

The purpose and intent of establishing zoning districts is to ensure that all development is consistent with the goals, objectives and policies of the Comprehensive Plan, by establishing a series of zoning districts that indicate what uses are allowed and site development regulations that control the use of land in each district. All development within each zoning district shall be consistent with the purposes stated for each district. (LDC 7.12.05)

COMMERCIAL TRADES & SERVICES (CTS)

Purpose and intent: The Commercial Trades and Services zoning district is intended to accommodate commercial service uses related to the construction industry, machine and other power equipment, durable goods repair and service, warehousing, boat repair and service, vehicle service and repair, and similar commercial trades and services that are more intense in nature than those uses allowed the CG zoning district but which are less intense in nature than those uses allowed in the IN zoning district. The CTS zoning district is not intended to accommodate any seasonal or permanent residential uses, commercial hotels, motels, bed and breakfast establishments, or other commercial transient living accommodations, manufacturing of goods or other activities that may generate nuisance impacts, including glare, smoke or other air pollutants, noise, vibration or major fire hazards, or other impacts generally associated with more intensive industrial uses.
