ELEVATING MACHINERY REGISTRATION REQUIREMENTS

In accordance with 14 CFR Part 77.9, if you propose any of the following types of construction or alteration, you must file notice with the FAA at least 45 days prior to beginning construction: any construction or alteration that exceeds an imaginary surface extending outward and upward at any of the following slopes:

- **100 to 1 for a horizontal distance of 20,000 ft. from the nearest point of the nearest runway of each airport described in 14 CFR 77.9(d) with its longest runway more than 3,200 ft. in actual length, excluding heliports**
- 50 to 1 for a horizontal distance of 10,000 ft. from the nearest point of the nearest runway of each airport described in 14 CFR 77.9(d) with its longest runway no more than 3,200 ft. in actual length, excluding heliports
- 25 to 1 for a horizontal distance of 5,000 ft. from the nearest point of the nearest landing and takeoff area of each heliport described in 14 CFR 77.9 (d).

Link below is a useful tool where contractors/developers can enter coordinates, site elevation, and structure height and it will automatically tell the entity seeking a permit whether they need to submit an airspace study for a determination for a permanent facility and/or temporary equipment.
